To whom this may concern.

Right from the start the staff at Listers tried their hardest to help me, [REDACTED]
Installations, make my business work.

From the Directors, all the way to the delivery staff no problem is too big and no
question is too small.

The high standard which Listers set is very high and hard ignore. From the
layout off their information pack, to the help and time spent with myself
informing me on sales tactics and new products are excellent and second to
none.

The quality of their product and standard of workmanship has not just been
noticed by myself but also by my customers which helps me all the more. So a
BIG THANK YOU to all the staff at Listers.

And good luck for 2011.
